

Weight and Toxin Management with Slique

Dear Friends,

My last email introduced you to NingXia Red, China's key to vastly improved health. Close behind it among distributor sales is Young Living's Slique™ Kit, which will help support you to safely reach your desired weight.

In this weight obsessed society and with obesity growing into a major medical problem, the Slique™ Kit attacks two of the main issues to successful weight control: achieving adequate nutrition and dieting sensibly. This email outlines how Slique insures that you safely obtain these two objectives. Get these two under control, and the third element – exercise—often falls into place. Here's how the Slique Kit works:

The sense of smell and taste play an important part in weight control.

* Slique Tea – the pleasing aromas of this special blend of Young Living's tea satisfy the

sense of smell to win the first stage of the battle, while it provides nutrients to deliver energy and maintain normal body functions.

* Slique Essence “Essential Oil Blend” – is another exclusive Young Living essential oil blend of spearmint, ocotea, and a variety of citrus essential oils. Citrus Oils include grapefruit, lemon, tangerine, with the addition of ocotea. This combination supports blood sugar balance, and to help suppress olfactory receptors to reduce the desire for food. Stevia is a natural sweetener with no calories, making this a perfect beverage enhancer.

* Balance Complete— is a fiber meal replacement that also acts as a powerful energizer and cleanser. High in fiber, high in protein, it contains the good fats, enzymes, vitamins, and minerals needed for a healthy meal. This special formula also absorbs toxins. (present in regular Slique kit).

* Slique Slim Caps— Slique™ Slim Caps combine essential oils, dietary fibers, and other key ingredients into a weight-management supplement that may induce feelings of satiation, increase metabolic activity, and decrease excessive eating and over indulgence (present in regular Slique kit).

* Slique Gum - Ancient travelers throughout the Middle East used raw frankincense resin for its nutritional content and ability to help control hunger. Slique™ Gum offers those same benefits in a modern delivery system that helps control food cravings and improve oral health.

* Power Meal -- is a delicious brown rice-based meal replacement rich in calcium, antioxidants and amino acids that provides you with 20 grams of high quality protein and more benefits (present in Vegetarian Slique Kit).

* Detoxzyme† -- is a vegetarian mixture that aids digestive function using essential oils like fennel and cumin. It also cleanses the body and helps remove toxins (present in Vegetarian Slique Kit).

The dietary power of the Slique system knows no ends. The citrus oils, properly extracted, reportedly aid in eliminating cellulite from the body!

Other benefits of properly extracted citrus oils are to assist the action of kidneys, reduce retention of water, and balance emotions. Emotional balance is critical when battling any

addictions or cravings including food addictions.

Other natural ingredients in the Slique kits help regulate blood sugar for customers plagued with diabetic complaints.

Although it appears the Slique system is only for those who are overweight, this is not the case. Those interested in maintaining healthy weight and eliminating stored toxins can also benefit tremendously from this system. If obesity is a concern for you or your family's problem, or you simply want to keep their weight within the healthy range, use the Slique Kit as a start to your solution.

The Slique system is also available as a Start Living kit, which can establish your distributor/wholesale account, so you can enjoy the Slique benefits at a discounted price. Invite a few friends who would like to attain their healthy weight with you, and you can earn income to pay for your own products. A win-win-win scenario, health, free products, and health for others. Do you know someone who would be interested in Slique for weight control or clearing stored toxins? They may appreciate reading this email and other information found on my website. Feel free to forward this email to them.
